

The nature of air™

Dometic Quiet Zone™ Ducted Air System

Dometic has the most effective return air system in the industry. A Dometic High Performance air conditioner, a Comfort Control Center II or Single Zone LCD thermostat and unique top mounting system work together to provide superior cooling performance. This proven winner is called the Quiet Zone.

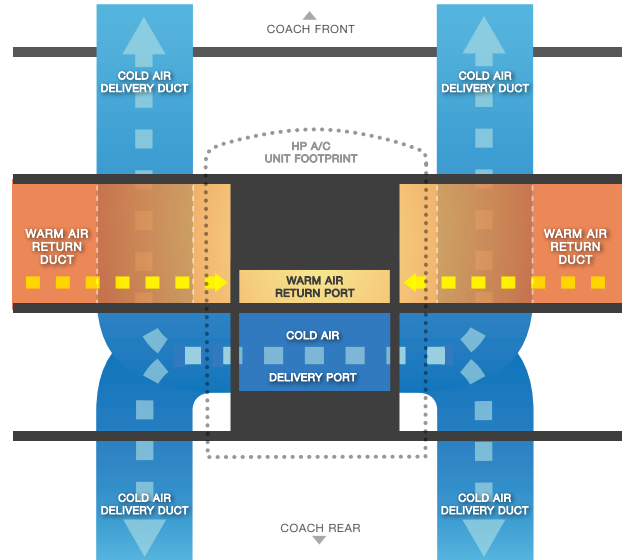

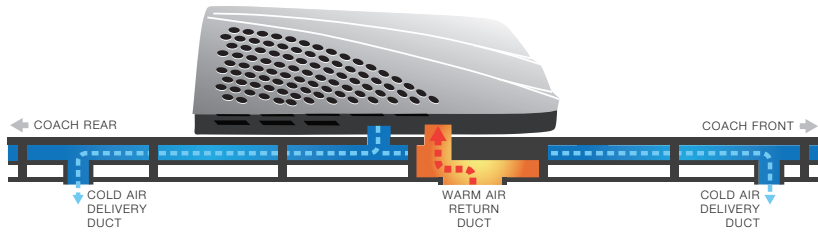

- Reduced noise and superior airflow for interior comfort
- Increased air changeover
- Fast, simple installation for efficient production
- Engineering superiority and proven performance
- Most efficient RV air conditioner system in the industry

 **Dometic**

Dometic Quiet Zone™ Air Return System

How it works: The Quiet Zone System feeds cool air directly into the ductwork system. Cool air enters a port built into the rafters at the first stage of distribution. Warm air is pulled through a separate ductwork system to be vented to the outside. This residential style system keeps noise and vibration away from the living space for quiet, cool comfort.

Dometic continues climate control leadership with the first true residential air conditioning system for RV's.

“Best in class” air conditioner has the lowest power draw in the industry.

Quiet - operation moved away from living spaces below.

15,000 BTU's of cooling power with a powerful three-speed blower. Also available in 13,500 AC and 15,000 BTU heat pump models.

Comfort Control Center II has easy-to-use display with a highly responsive internal sensor for precise control.

Ductwork application - warm air return ductwork designed to fit within current rafter framework.

Fast, top-mount installation with Molex 110V connectors.

Single Zone LCD thermostat gives you control. Large three-button operation with digital calibration for consistent room comfort.

The unique air divider comes complete with bolts, self-sealing washers and our special sealing block design.

On-site application specialists - train personnel in the system for maximum efficiencies in the production process.

Leadership - Dometic is the only manufacturer with a full facility to test and verify results from their engineering designs.

Outstanding Warranty

Dometic's 2-Year Protection Plus warranty.

Quiet Zone™ Advantages

- Single or multi-zone controls
- Powerful three-speed blower
- Less vibration
- Less noise
- 26 percent more air flow
- Top mount installation
- Engineering tested
- High output
