17. Beauflor Flooring (In some areas)
18. Carpet with Pad (In some areas)
19. 1.5" Aluminum Framing

Sunseeker SUPER LITE WALLS

All Sunseekers use SuperLite composite instead of a wood substrate on the sidewalls. It is lightweight, formaldehyde free and is not affected by moisture.

Sunseeker BEAUFLOF FLOORING

Beauflor: A better grade of flooring that is slip resistant even in wet conditions and highly resistant to tears. Unlike vinyl floors with paper backing, our backing remains stable in extreme hot or cold and is backed by a two-year cold crack warranty.

Sunseeker FIBERGLASS ROOF

Our fiberglass roof is extremely durable, easy to clean and will not cause black streaks like a rubber roof will.

Sunseeker DUCTED AIR WITH A "QUICK-COOL" FEATURE

All Sunseeker have ducted air and crowned fiberglass roofs to shed water. (R-18)

Quick-Cool diverts 85% of cool air to the center of the coach.

Sunseeker WATER FILTRATION

You'll appreciate the water filtration system that is standard with each Sunseeker. This compact unit filters water for the entire coach, eliminating those unwanted contaminants and odors. Insuring safe drinking water for you and your family.

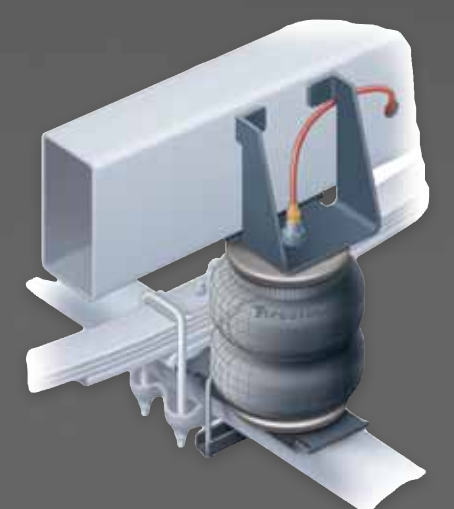

Sunseeker EXCLUSIVE SERTA MATTRESS OPTIONAL

Serta is the #1 supplier to the hotel industry, just one night in a Sunseeker and you'll see why.

Sunseeker FIRESTONE RIDE-RITE

Adjustable air springs provide an improved ride and a better way to balance loads.

Sunseeker HEATED AND ENCLOSED HOLDING TANKS

The Sunseeker features a heated and enclosed utility station. Your tanks and valves are protected from mud, ice and other road debris.

Sunseeker INTEGRATED STEP

Sunseeker's entry step is integrated into the sidewall. No more slippery, or damaged power steps.

Sunseeker POWER AWNING

Extend and retract your awning with the push of a button. Both arms are adjustable to get just the right angle.

Sunseeker RESIDENTIAL DRAWER GUIDES

Full extension ball bearing drawer guides open fully for easy access to storage.
