**SPECIFICATION DEFINITIONS**

**GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of the unit when fully loaded. It includes all weight, including all fluids, cargo, optional equipment and accessories, for safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination permissible weight, including cargo, fluids, optional equipment and accessories. For safety and product performance do NOT exceed the GAWR.

**UVW (Unloaded Vehicle Weight)** is the typical weight of the unit as manufactured at the factory. It includes all weight on the unit's axle(s), and tongue or pin.

The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated average based on standard build optional equipment or dealer installed accessories.

**CCC (Cargo Carrying Capacity)** is the maximum weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water, cargo, additional optional equipment or dealer installed accessories.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.
