Specification Definitions:

GVWR (Gross Vehicle Weight Rating): Is the maximum permissible weight of the unit when fully loaded. It includes all weights, including all fluids, cargo, optional equipment and accessories. For safety and optimal performance, do not exceed the GVWR.

GAWR (Gross Axle Weight Rating): Is the maximum permissible weight of the unit when fully loaded. It includes all weights of the unit’s axles and tongue, as well as all cargo and passengers. The GAWR does not include cargo, passengers or any optional equipment or accessories installed after manufacture.

UVW (Unloaded Vehicle Weight): Is the weight of the unit as manufactured at the factory. It includes all weight of the unit(s) and tongue, except for optional equipment and accessories.

CCC (Cargo Carrying Capacity): ** In the amount of weight available for load. Cargo, additional optional equipment and accessories. CCC is equal to GVWR minus GAWR. Available CCC cannot exceed the vehicle’s weight limit as per specification. Before filling the truck’s weight, empty the black and gray tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our factory.

The load capacity of your unit is determined by weight and not by volume, so cargo must not exceed the available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including changes in colors, materials, equipment and specifications, as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. Litho. U.S.A.
