3330BH

This bunkhouse floorplan offers something for the whole family. Our 3330BH C-Class edition offers a full rear bunk loft and two full-size bathrooms with tub shower. With sleeping for up to twelve, this unit surprisingly doesn't sacrifice living space for sleeping quarters. This model is equipped with a full pantry, and a beautiful entertainment system that the whole family will love to gather around.

Featuring Umber Decor
AT HOME ON THE ROAD

Our 3550FL C-Class edition has the same luxurious layout as our original front living floorplan at a fraction of the cost. Boasting one of the largest front cap windows in the industry, this beautiful coach offers the perfect front view. The entertainment center of the 3550FL model is second to none with a standard pop up 50” flat screen TV and oversized fireplace for all your entertaining needs. The full walk in shower with an overabundance of headroom is something every outdoor enthusiast should not go without.

* Additional 10 Gallons of Fresh Water For Water Heater
GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit’s axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
