We invite you to take the road less traveled... and make it all the difference.
PVC Membrane - Fully Walkable Roof
16" On-Center trusses featuring 3/8" decking, R14 Residential Blanket Insulation, finished with Best in Class PVC Roof Membrane.

1. No treatments required — Ever!
2. 15 Year Warranty, 100% coverage.
3. 2x the puncture strength & 20% more tear resistance
4. Will not chalk, streak, or spot.
5. Extraordinary reflectivity keeping your trailer cooler

Azdel Onboard
Composite Panels, Patented Blend of Polypropylene and Fiberglass, replaces “wood” backing. Surveyor uses on Sides, Rear, Slide Room, and Front Walls (NA Front of Luxury, Fiberglass Cap)

- Protects against delamination - repels water; no rot, mold, or warpage
- Unaffected by humidity or temperature changes
- 2x insulation value - blankets like a “Radiant Foil”
- 1/2 the weight of wood - keeps fuel costs down
- Longer life and better resale value
- Quieter RV - absorbs sound waves

TWO-TIME SURVEYOR OWNERS, 
IN THEIR OWN WORDS

We just purchased our 2nd Surveyor. We really enjoyed our current Surveyor, both the quality of workmanship, the layout, and the amount of storage.

We are experienced RV’ers and over the years we have owned campers, fifth wheels, and travel trailers; so when we determined we needed a little longer travel trailer for our extended trips, we immediately thought of another Surveyor and our excellent dealings with the previous dealer.

Lynn & Michele Adair
Tallahassee, FL, 2019

“GO CONFIDENTLY IN THE DIRECTION OF YOUR DREAMS! LIVE THE LIFE YOU’VE IMAGINED”

Legend Murphy Beds are better designed and the smartest use of space in order to tow a shorter trailer that has both a dinette & sofa. They come equipped with the super easy to use “Latch & Catch” system for operating our 60” x 80” Residential Queen Bed!

No mattress taking up valuable storage space; and bedding not exposed to whatever else could be in there.
“KIDS NEVER REMEMBER THEIR BEST DAY OF TELEVISION.”

GVRW (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVRW.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluid, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight) - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit’s axle(s) and tongue or pin and LP-Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVRW minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

** Estimated average based on standard build optional equipment

The load capacity of your unit is designated by weight, not by volume. so you cannot necessarily use all available space when loading your unit.
